A NEW MOVE

Against Royal Arcanum, This Time By New Hampshire Men.

Boston, Aug. 30.—Arthur F. Cummings and James F. Upstone, both of Nashua, N. H., yesterday filed a bill in equity in the United States district court here, asking for the appointment of a receiver for the Royal Arcanum, a fraternal insurance order, on the alleged ground that its funds had been impaired by doubtful investments and the loss of a large number of members. The bill charges that the order has become hopelessly insolvent and that its resources are insufficient to meet its obligations.

The bill filed by Cummings and Upstone is the second receivership proceeding brought against the Royal Arcanum in recent months.

HIGHEST PRICE PAID

Ram Brings \$1,500 at Public Auction in Utah.

Salt Lake City, Utah, Aug. 30.—What is said to be the highest price in the United States for a ram sold at public auction, was paid for a thoroughbred at the second annual sale under the auspices of the National Wool Growers' association, which is in session here. One ram brought \$1,500 and 422 sheep were sold for a total of \$45,000.

President F. J. Hagenbarth of the National Wool Growers' association, in an address, said that it was the duty of the wool and sheep men to stand by the president and the government in measures affecting the wool industry. He called attention to the shortage of the wool supply and appealed to the men to further the interests of the industry even at the sacrifice of present profits.

PROSECUTIONS PROMISED

If Boston Coal Dealers Engaged in Conspiracy.

Boston, Aug. 30.—An investigation has been started by the state attorney general's office into the conditions revealed by a recent report of the federal trade commission, which charged that coal dealers in this city made unreasonable profits last spring. Arthur E. Seagrave, assistant attorney general, said yesterday:

"If the investigation discloses any criminal act or unlawful conspiracy, this office will start prosecution immediately."

Philadelphia, Aug. 30.—A contract has been awarded to a Philadelphia concern to manufacture 1,074,000 gas masks for our army, calling for an expenditure of \$1,502,000. The government will furnish the material.

BIG FOREST FIRES ARE LAID TO PLOTS

The Arrest of I. W. W. Men Is Expected Hourly in the Northwest.

Washington, Aug. 30.—Arrests of incendiaries who have been setting fires to dry forests in Oregon, Washington, Idaho and Montana in the last few days are expected in a few hours. One valuable forest in northern Idaho upon which the aircraft production board was depending for lumber is burning and department of justice agents say there is little doubt that the many fires are the result of a plot to deplete lumber resources.

Not less than six big fires are raging in Montana, including two in the St. Regis valley, where scores of persons were trapped in 1910. None of these fires are reported under control as yet. In Washington the fires are now under control, but in Idaho and Oregon they are reported still menacing.

Members of the I. W. W. who have been active against the government in the last few weeks are suspected of starting some of the fires, and this suspicion will lead to arrests, it is thought. The governor of Oregon, as a measure of prevention of further spread, has postponed the hunting season.

In Montana the situation is so bad that eastern Washington has been called upon to aid in extinguishing fires.

WILSON TO LEAD DRAFT PROCESSION

Will Ride at Head of Parade in Washington of Men Accepted From the District of Columbia.

Washington, Aug. 30.—President Wilson will ride at the head of a parade here next Tuesday of the drafted men of the District of Columbia, who have been accepted for service in the national army.

POPE NOT TO EXPLAIN YET.

Benedict XV. Will Wait Until He Has Heard from Belligerents.

Paris, Aug. 30.—A dispatch to the Internationalist from Rome says: "Vatican circles say that Pope Benedict does not intend to issue a second or explanatory note to clear up his peace proposals as it had been reported he would do, but will wait until he has heard from the belligerents before offering any interpretation of his original communication."

SPORTING NOTES.

The National commission's crusade against betting was launched Tuesday at the Braves field when about 25 persons were refused admission. "Plain clothes" men from different police departments have been working secretly lately and have secured evidence against many fans, of whom admission was refused, for the first time Tuesday.

Cincinnati certainly showed their hitting ability Tuesday in their encounter with Boston, when they secured 12 hits. Kopf and Roush led the attack, the former having three hits out of five times at bat, while the latter had three hits including a double to his credit out of five trips to the plate.

Scribes have been lamenting over Cobb's recent slump, although the "Georgia Peach" has a batting average of .380.

There has been a rumor lately that Johnson, the Washington star, is to be sold to the highest bidder. One phase of the rumor states that President Comiskey has already started negotiations for Johnson in an effort to secure the American league pennant. Col. Ruppert of the New York American league team has declared his intentions to secure Johnson if possible.

The fielding of Herzog featured Tuesday's engagement between New York and Pittsburgh, when the Giant second baseman had two putouts and seven assists to his credit.

THOMPSON WARS AGAIN ON DRAFT

Demands That Conscripted Men Be Kept at Home

U. S. OFFICIALS ARE AROUSED

Chicago Mayor Causes Much Uneasiness to Loyal Citizens

Chicago, Aug. 30.—Mayor Thompson caused uneasiness to loyal citizens again yesterday. His latest utterance, not altogether consistent with the government's war aims, forecast agitation in favor of keeping the drafted men at home. He predicted that the selective service army would never reach France.

The department of justice, it was learned yesterday, is taking more than a casual interest in the assertions of Mayor Thompson. Copies of the Republican, his "official organ," are being mailed each week, it was said, to the postoffice authorities and the attorney-general at Washington.

"The people, the first time they are given an opportunity to vote," said Mayor Thompson, bringing his fist down on his desk, "will express themselves so emphatically that there will be no doubt about keeping the conscripted soldiers at home."

"Like Washington and Lincoln, I believe that real patriots should stand for one country and one flag."

"Prepare this country against invasion."

"Conserve our foodstuffs for our own people, so that there will be ample wholesome food within the reach of those of humblest means."

"Keep our conscripted soldiers on our own soil for our own use."

"Send no one to foreign trenches without his consent."

The mayor then hurled the term "dollar patriots" at those who call him a traitor.

"I notice that it is the 'dollar patriots' who want to send me to Leavenworth," he asserted.

"What do you mean by 'dollar patriots'?" he was asked.

"The fellow who is screaming patriotism because he is making money out of the war. The one who is condemning those who are against the war because they will lessen his chances to make money out of the war," replied the mayor.

"What I would like to know," he continued, returning to his opposition to the expeditionary force, "is who will write our insurance policy?"

"When we get all our soldiers on the other side of the water who is going to protect this country? Who is going to insure our soldiers a safe return?"

He then asserted that the people at their first opportunity to vote will deliver a staggering blow at this country's expeditionary plans. He modestly refused to say, however, whether he plans to lead in aiming the blow.

ITALIANS CAPTURE 1,000; GAIN EAST OF GORIZIA

The Austrians Offer Stubborn Resistance on the Bainsizza Plateau.

Rome, Aug. 30.—Further gains east of Gorizia and the capture of more than 1,000 prisoners marked a resumption of the Italian offensive yesterday after a night of comparative inactivity. The official statement announcing the new battle also tells of desperate resistance by the Austrian rear guards to the pursuing Italian troops on the Bainsizza plateau.

Forty Italian aeroplanes dropped 1,540 pounds of explosives on batteries on the way toward Panovizza.

BAR SILVER SELLING AT 89 3/4c.

Price Climbing Rapidly and An Advance of One Cent Since Tuesday.

New York, Aug. 30.—The price of silver continues to move rapidly upward. Yesterday bar silver was quoted at 89 3/4c, an ounce, a rise of one cent since Tuesday.

Ladies! Why Keep Corns?

Lift a corn or callus right off without one bit of pain.

Yes! You truly can lift off every hard corn, soft corn or corn between the toes, as well as hardened callouses on bottom of feet, without one bit of pain. A genius in Cincinnati discovered freezine. It is an ether compound and tiny bottles of this magic fluid can now be had at any drug store for a few cents.

Apply several drops of this freezine upon a tender, aching corn or a callus. Instantly all soreness disappears, and shortly you will find the corn or callus so shriveled and loose that you lift it off with the fingers. You feel no pain while applying freezine or afterwards.

Just think! No more corns or callouses to torture you, and they go without causing one twinge of pain or soreness. Keep a tiny bottle on the dresser and never let a corn or callus ache twice.—Adv.

MANY RESERVE OFFICERS GOING

Two Hundred to Be Sent Abroad with Gen. Edwards

TRANSFERRED TO ARMY DIVISION

Reorganization of the Army Has Made Officers Scarce—Names Not Known

Boston, Aug. 30.—Information of much interest to the young officers of the first Plattsburg training camp is incorporated in the announcement which emanated from the headquarters of the department of the northeast yesterday to the effect that 200 of the men detailed to the national camp at Ayer are to be at once transferred to active duty in the 26th army division.

This means that they will go abroad under command of General Edwards in the near future. The names of the men selected have not yet been made public.

The change of plan is due of course to the scarcity of officers created by the reorganization which has just been completed.

AMMUNITION COLUMN IS VERMONT ORGANIZATION

Probably Largest Body of Vermonters in the Army—Has 695 from Vermont Regiment.

Westfield, Mass., Aug. 30.—Not all of the 1300 taken from Fort Ethan Allen are at Westfield. Company A and Company E and two other companies are reported to be at Framingham, Mass., while quite a few are said to be at Natick, Conn., including Company C.

The Vermont boys at Westfield are largely in the ammunition column of the 26th division. The ammunition column is made up of 935 men and 27 officers. Some of the officers of the column jokingly referred to it as "the truckmen's union" of the 26th division.

The duty of the ammunition column is to handle the ammunition, arms, etc., and it is said that the Vermont boys were picked for this service because of their husky appearance. The service is considered a desirable branch.

Of the 935 men in the column 695 and most of the officers are Vermonters. The other 240 men are from the Massachusetts coast artillery. The column will be commanded by Lieut. Col. Keville of the regular army. The majors are Major Ashley of Vermont and Major King of Massachusetts.

The outfit of the ammunition column includes 150 motorcycles with side-cars, 150 horses and 150 mules, wagons, automobiles, etc.

Major Ashley stated Tuesday that while all the officers regretted that the Vermont troops were separated from the men of their command, were fortunate in being combined with the Massachusetts coast artillery who are an unusually fine lot of young men. Col. Keville has not yet arrived at Westfield.

A few of the Vermont soldiers at Westfield are not in the ammunition column, but are attached to a machine gun company which is a part of the 26th division.

An ammunition column is composed of seven companies and the companies are numbered instead of known by letter. It looks now as though this ammunition column will be the most nearly a Vermont organization of any in the army. Company 6 is commanded by Capt. McLaugh of Montpelier, Capt. Corey of Newport and Capt. Hudson of Burlington command Company 5 and 7.

RED CROSS ROSTER JUMPS FROM 275,000 TO 3,500,000

Membership Increasing at the Rate of 25,000 to 100,000 a Day, Headquarters Announces.

Washington, Aug. 30.—Membership of the American Red Cross has reached the 3,500,000 mark, and is increasing at the rate of 25,000 to 100,000 a day, according to a headquarters announcement yesterday. At the beginning of the year the total was 275,000.

BRITISH STOP BUYING HOGS.

Move—Chicago Affected.

Montreal, Aug. 30.—The British food controller has dealt livestock dealers and farmers a hard blow by the issuance of a ban of an order to the effect that hereafter no more Canadian hogs or bacon will be purchased by the British government. The effect of this on the packing industries of Canada is apparent when it is recalled that last year the export of bacon to Great Britain was over 200,000,000 pounds. The farmers also will feel the loss keenly, as they have devoted considerable of their energies to raising an extra large amount of pigs this spring, for which they expected to get prices which would compare with the high prices of feed. The news from England caused the live-hog market, which had attained a new high record of \$19 to \$19.50 cwt., to break \$2 to \$2.50. Many drovers have stated they will expect to sell soon at \$16.50 cwt.

Furthermore, the American hog market at Chicago will be affected, as dressed hogs in large quantities have been purchased there by Canadian packers. One house has been taken at least 10,000 per week, for the English trade.

Children of the War.

In an invaded district of Lorraine, writes Ruth Wright Kaufman, foreign correspondent of The Vigilante, one of the children stolen by the Germans was a beautiful and healthy little girl of four years, who was promptly adopted by the German colonel. The mother, meanwhile, was left to make her way alone westward as a refugee. For nearly a year, she did not know if her child was dead or alive. Then, one day, the little girl was returned by the Germans, ill and painfully thin.

The mother frantically made inquiries. Had they starved her little girl? She knew well enough what had happened to other children—to the children of her neighborhood—but since hers had pleased the colonel—

"Oh, no, mamma," the child said. "They gave me cake and toys. But," she added, "I knew they were 'Boches,' and I wouldn't take any. I wouldn't eat at all, only when I was so hungry I couldn't say 'no' any longer."

The question whether the civilian population should economize and do without certain things or the soldiers and sailors be denied things necessary for their effectiveness and safety was answered in no uncertain or unpatriotic way by the masses of the English people. They did their bit in financing their country.

Neither in ability nor in patriotism are the American people second to the English or the French or the German or any other nation. The Liberty loan is at once an appeal and a pride. It appeals to their patriotism and their civic pride; it is an opportunity to save and an opportunity to serve their country.

No American need fear that the results of the American people's support of the Liberty loan will fail to maintain America's traditional patriotism and power. The more than 4,000,000 subscribers and the more than a \$1,000,000,000 over-subscription to the first issue of the Liberty loan bonds are eloquent testimony of the American people's loyalty to their government and their willingness and ability to give it full financial support.

MESS SERGEANT IS A CAMP CZAR

He Is an Army Food Controller Who Controls

ADVICE TO CONSCRIPT ROOKIES

Treat Him with Much Defiance, Is Washington's Warning

Washington, Aug. 30.—Be good to the mess sergeant.

When you get to your cantonment camp to be made over into a soldier be good to him, for he will be lord high commissioner of your stomach and everything that goes into it.

He will be the arbiter of your epicurean fate and when, on entering the mess tent, you see him standing there in all his glory and a fresh white coat, tug the forelock and scrape the foot to him, for he is more absolutely dictator of your food than Herbert C. Hoover will ever be.

He is the chief cook. He buys every bite you eat. He writes the bill of fare and dictates how you shall be fed. He sees that your vegetables are properly cleaned before they're cooked. He fights your battles with the butcher to see that you get good meat. He haggles with the hucksters to see that you get good green stuff. He gives the first and second cook, the dining room orderly and the three cooks' police their orders. He runs the whole shebang for you and 99 other rookies like you. He works hard for you, all day long and sometimes far into the night.

And so, if he checks up the plates and spoons and things and finds you've lost a couple and charges you for them out of your pay don't grumble. He has to do that.

Above all don't get gay with him on any account. He is responsible for your orderly conduct in the mess hall. He's there to see that you arrive in the proper quiet and orderly manner, with your uniform neat and clean. He looks you over and if your hands are soiled or your face unclean, he sends you kiting back to fix yourself up, just as mother used to do. He sees that you sit properly at the table, quiet and orderly, until your food is passed to you. He won't stand any restaurant rough stuff, if you are in the habit of pulling any. Loud talking and unnecessary noises will bring him down on you.

He'll see that you follow Hoover's advice about not wasting your food, too. He's an apostle of the clean plate if there ever was one. If you take more on your plate than you can eat he'll report you. You're welcome to all you want to eat, but you're not welcome to any to waste. Food left on plates can never be used again. If it is left in the serving dish it can be dishes up in some other palatable form at another meal.

SIX ARRESTED

Suspects in Chicago in Connection with Murder and Robbery.

Chicago, Aug. 30.—Six men and a woman are in custody, suspected of complicity in the robbery and murder Tuesday of Barton O. Allen and Louis C. Osenberg, messengers for Brinks' Chicago City Express company, as they were about to deliver the weekly payroll of \$9,100 at the plant of the Winslow Foundry company on the west side. The police Tuesday night arrested Charles Carrao, president of the Chicago Street Cleaners' union, and later five other men were arrested after a fight in a saloon.

A woman relative of Carrao also is being held.

Another Ignoramus.

Collier's Weekly, which used to be a well known publication, has an editor apparently, who resembles a country newspaper editor in one respect—He writes on subjects on which he has no correct information. The following is a recent exploitation of his ignorance:

"A new roll of honor is forming now, and listed on it are the many districts exempt from this first draft because of over-enlistments already made. White county, Indiana, on the Tippecanoe river, is there and so are other American settlements all the way west from the state of Maine, but the leader, as far as we know, is of 'the dark and bloody ground.' Probably most of us have never considered Breathitt county, Kentucky, a model rural community for the rest of the country to pattern after, but it certainly has merit now. Breathitt was due to furnish 182 men, but 212 had enlisted in the regular army before the numbers were drawn. That bunch of 212 was over twice the regular army enlistments in the same period from the whole state of Vermont, which has 20 times the population. It was years ago that Daniel Webster was answered in the one word 'men' when he asked what crops they raised on the granite of those Green Mountain slopes. Since then the descendants of Ethan Allen's neighbors have gone in for summer boarders and other non-military industries. Certainly Breathitt county is closer now to the spirit that stormed Tippecanoe and hustled its captured powder and shot over the mountains to turn Washington's dubious siege of Boston into certain victory. Perhaps there will finally prove to be no fundamental difference after all. Eden Mills and Starksboro ought to stand as straight in the national line-up as any Peartree or Crockettville. When once in the game, the cockney clerks of London town fought as hard as the dour Highlanders that ever dropped down the hills into Inverness. If it were not so, our civilization would have been conquered before this. But there must be proud hearts in Breathitt county these days, for her sons have shown the way."

We haven't any quarrel with this editor.

Barre proof is what you want, and the statement of this highly respected resident will banish all doubt:

A. J. Stewart, carriage maker, 24-26 Prospect street, Barre, says: "Some years ago, I suffered from an injury with my back, which left my kidneys weak. I have been troubled more or less since then with the kidney secretions. They have been off color and have generally contained sediment. My back has been quite painful at times, and sharp pains have run up and down my spine. I have always used Doan's Kidney Pills on such occasions, and they have always given satisfactory relief."
